

## Geo. Washington Regatta

February 11-12, 1995 Fleet 4 Lake Eustis SC, FL

Submitted by Bob DeWitt

The Lake Eustis Sailing Club, in conjunction with the City of Eustis' 93rd Annual George Washington's Birthday Festival, held a regatta over the weekend of February 11 and 12.

Eight MCs were scheduled to sail four races on Saturday and two on Sunday with one throwout if all six were completed. Winds Saturday ranged from 8-12 MPH with some gusts up to 15. Super Grand Master Frank Keenan led the first race from start to finish, increasing his lead at every mark. After showing the fleet he was still top gun, Frank retired for the balance of the regatta. Greg Murphy, stepped out of a self-imposed three-year retirement and won two of the next three races sailing Bob DeWitt's MC, Easy Going. John Schneider, our winter snow-bird from Wisconsin, won the remaining Saturday race.

Sunday morning dawned with dark sky, 70% chance of rain, 15-20 MPH winds and the threat of tornadoes. The RC took a quick poll of the contestants and cancelled the two races.

## Lake Harriet Spring Regatta

May 13-14, 1995

Submitted by Paul Hammond

The Lake Harriet Yacht Club announces it's annual Spring Regatta for MC's, M-16's, and X-boats.

There will be a total of five races, three on Saturday and two on Sunday. Trophies for the first five places will be awarded for the MC's and M-16's and the first seven X-boat skippers will take home new hardware.

The \$40 registration fee covers continental breakfasts on Saturday and Sunday, as well as lunch and a dinner party on Saturday. America's Cup Race #5 will be replayed on big-screen TV Saturday night for those whose sailing passion is still not satisfied after a full day's racing.

The mandatory Skippers' meeting at 0930 Saturday will be followed by the first race at 1030. We also require all boats to be equipped with life jackets as the water temperature will still be quite cold. Mooring buoys will be provided for all boats.

Please call Paul Hammond at 612 927-0531 to request entry forms.
